RIMES

THE IDEA IS TO CREATE, TOGETHER, WITH OTHER PROFESSIONAL YOUNG PEOPLE, A STRUCTURE, WHERE WE COULD PROVIDE WITH OUR VISION OF ARCHITECTURE AND URBANISM BUT ALSO...  
A COOPERATIVE STRUCTURE WHICH ANSWERS THE NEEDS OF TRANSPARENCY, OPENABILITY AND AGILITY...  
AND A LITTLE BIT OF CRAZINESS !

« We are David and Sue, two young graduates in architecture and urbanism in Marseille.

Our beginnings in the professional world, in an agency or as independent worker, led us questioning the way of exercising our jobs, which is most of the time too ruled faced with the complexity of subjects like territory and living environment.

The idea of creating, together, with other professional young people, a structure, where we could provide with our vision of architecture and urbanism but also...

A cooperative structure which answers the needs of transparency, openability and agility.. and a little bit of craziness !

With RIMES we want to create a «out of the box» environment, an area where experimenting is possible, where we can cross our skills and working fields, where the collective dimension is valued as well as the quality of our relation with our territory : Eventually, we're simply trying to build a job that matches our values !
